#### summary

Hi! My name is Sergio and now I'm enrolled in Bachelor's Degree in Statistics at University of Valladolid. The reason is because during my Bachelor's Degree in Computer Engineering the mathematical curiosity arose me. For this, I think the merge of my previous engineering knowledge combined with my future scientific learning will enrich me to raise and solve complex problems. In following paragraphs I will describe my professional profile.

During my first years of coding I've learned Java at University, and Android on my own, then I developed EvaluaMe app. After that, I started to be curious about web development (I really like TypeScript, especially when is boosted with Angular). Also, I've worked with PHP and WordPress during my internship at Brooktec, but I prefer not to work with those technologies anymore.

In the writing area, I've started to use LATEX as a clean way to submit class assignments at University, but it has become one of my passions. Another of my favourite ways to communicate things (especially when code is involved) is Jupyter Notebook.

During my Computer's Engineering Degree last year I focused my work on numerical computation, statistical methods, machine learning algorithms and graph problems. Mostly using Python and libraries like NumPy, Pandas, NetworkX, etc. Also, in my final degree project of Computer Engineering, I've started an open source project called TFGraph which consist of a graph library on top of TensorFlow. To learn more about packaging and library distribution I've developed ng-katex, an Angular module distributed over npm that allows you to visualize TFX math expressions on browsers boosted by KaTeX.

Due to my data passion, I want to focus my future work on statistical computation, that is everything related with the research and implementation of new techniques to process, analyze and predict data. For this reason, I've learned R language and libraries like tidyverse, data.table, etc. Currently, I'm involved in learning amazing things related with probability theory, inference techniques, classification methods, multivariate analysis, etc.

In previous paragraphs I've explained my background and favorite technologies that I love to use. Bellow, I'll show you some of my skills in more abstract way:

- · High Performance Algorithms
- Data Structures
- Parallel Programming
- Statistical Computation
- Data Visualization
- Machine Learning Techniques

- Graph Theory
- Academic Writting
- Research Work
- Code Standards (OOP Docs Tests)
- · Agile Methodologies
- Version Control Systems (VCS)

As you've seen I want to work in positions related with Machine Learning, Big Data and Data Analysis. If you're offering for a related job don't hesitate to contact me. In the following pages you can visualize my background in a more classical way.

#### work

| 2018/09 - present | Software Engineer                     | Unlimiteck Company Builder |
|-------------------|---------------------------------------|----------------------------|
| 2018/06 - 2018/08 | Software Engineer Intern<br>3 months  | Unlimiteck Company Builder |
| 2018/03 - 2018/08 | Research Assistant Intern<br>6 months | University of Valladolid   |
| 2016/06 - 2016/08 | Software Engineer Intern<br>3 months  | Brooktec                   |

# projects

| 2017 - present | <b>ng-katex</b><br>T <sub>E</sub> X math expressions processing on browsers boosted by KaTeX | Angular |
|----------------|--|---------|
| 2017           | <b>TFGraph</b> Graph networks processing on GPUs   | Python  |
| 2015 – 2016    | <b>EvaluaMe</b> Tracker app for your school marks  | Android |

# publications

| 2017 | Algorithms for Big Data: Graphs and PageRank | University of Valladolid |
|------|--|--------------------------|
|      | Final Degree Project                         |                          |

### education

| 2019 - present | <b>Statistics</b> Bachelor's & Master's Degree, Erasmus+ Exchange Stude | Università di Bologna<br>ent |
|----------------|---|------------------------------|
| 2017 - present | Statistics<br>Bachelor's Degree   | University of Valladolid     |
| 2013 – 2017    | Computer Engineering, mention in Computation Bachelor's Degree          | University of Valladolid     |
| 2011 – 2013    | Social Sciences<br>High School  | IES Alonso Berruguete        |

### academic remarks

2018 Statistical Computing University of Valladolid

Score: 9.0/10.0

| 2017 | Parallel Computing Score: 9.9/10.0 with Honors           | University of Valladolid |
|------|--|--------------------------|
|      | Operation Research Models<br>Score: 9.5/10.0 with Honors | University of Valladolid |
|      | Data Mining<br>Score: 9.0/10.0                           | University of Valladolid |
|      | Machine Learning Techniques Score: 9.0/10.0              | University of Valladolid |
| 2016 | Codes and Cryptography Score: 10.0/10.0 with Honors      | University of Valladolid |
|      | Algorithms and Computing Score: 9.5/10.0 with Honors     | University of Valladolid |
|      | Web Services and Systems<br>Score: 9.0/10.0              | University of Valladolid |
| 2015 | Operating Systems Structures Score: 9.5/10.0 with Honors | University of Valladolid |
| 2014 | Fundamentals of Computer Networks Score: 9.0/10.0        | University of Valladolid |

#### courses

| 2018 | Search and Use of Scientific Information<br>25 hours | BUVa            |
|------|--|-----------------|
| 2017 | Scratch Monitor<br>12 hours                          | FUNGE UVa       |
| 2016 | SG Academy<br>20 hours                               | SolidGear       |
| 2014 | Plastic SCM (Software Control Manager)<br>8 hours    | Codice Software |
